

COMITATO ORDINATORE
PER IL IX CONGRESSO INTERNAZIONALE DI GENETICA

Segreteria Generale: Istituto di Genetica dell'Università
Via Celoria 10 - Milano (Italia)

Milan, May 29th 1952

Dear Dr. Lederberg,

We are starting in planning the Program for the Congress. Since I believe that your contribution will be of great importance for the section dealing with Genetics of Microorganisms, I permit me to express my hope that you will be able to find every support, needed for attending the Congress.

I think you will receive further communications concerning the lectures to be delivered in the field in which you work.

Sincerely yours

(C. Barigozzi)
